1 Corinthians 1:18–20

18 For the message of the cross is foolishness to those who are perishing, but to us who are being saved it is the power of God. 19 For it is written: “I will destroy the wisdom of the wise; the intelligence of the intelligent I will frustrate.” 20 Where is the wise person? ..Has not God made foolish the wisdom of the world?

고린도전서 (1 Corinthians) 1:18-20

18 십자가의 도가 멸망하는 자들에게는
미련한 것이요 구원을 받는 우리에게는
하나님의 능력이라 19 기록된 바 내가 지혜
있는 자들의 지혜를 멸하고 총명한 자들의
총명을 폐하리라 하였으니 20 지혜 있는
자가 어디 있느냐 ...하나님께서서 이 세상의
지혜를 미련하게 하신 것이 아니냐

“Daniel Praised the God of Heaven...:”

“Praise be to the name of God for ever and ever; wisdom and power are his.

21 He changes times and seasons; he deposes kings and raises up others.

He gives wisdom to the wise and knowledge to the discerning.

22 He reveals deep and hidden things; he knows what lies in darkness, and light dwells with him -Daniel 2:19-22-

is ther God?

The existence of God has been debated for centuries. Some people believe that there is a God while others do not. There are many books and articles written on this topic. For example, "Is There a God?" is a 1996 book by British philosopher of religion Richard Swinburne, claiming the existence of the Abrahamic God ¹. On the other hand, Stephen Hawking believed that there is probably no heaven and afterlife either ².

where did humans come from?

Most scientists believe that modern humans evolved around 200,000 years ago somewhere in the African continent before spreading across the world and becoming the dominant species we are today

what is it that AI doesn't know?

AI is a machine learning model that can learn from data and make predictions based on that data. However, AI does not have emotions or consciousness like humans do. It cannot understand human emotions or feelings like empathy or love. It also cannot understand abstract concepts like morality or ethics. Is there anything else you would like to know?

“AI-It’s Pushing an Anti-God Agenda!”

“many people might assume AI is neutral, just giving users “the facts.” But those who build AI systems have a worldview, and **that worldview dominates the answers AI bots give... humans program them, and how they answer will depend upon how they are programmed... there is no neutrality!”**
